presents

“SPRING
TONIC”

produced by the

'SCOPE AND SCALPEL SOCIETY

Thursday, April 5

Friday, April 6

Saturday, April 7

STEPHEN FOSTER MEMORIAL AUDITORIUM

8:30 p.m.

The Class of 1956 of the University of Pittsburgh School of Medicine proudly presents for your enjoyment the musical satire "Spring Tonic." We hope you have as much fun watching the show this evening as we have had in creating and rehearsing it. We started to work on this show with a goal and incentive to equal the fine performance of last year's "P.M.S.IV." We also wanted to do something to guarantee future Senior Class productions and to make their task a little easier—thus 'Scope and Scalpel was formed and officially recognized by the University of Pittsburgh. This Society will tap members of the present Junior and Sophomore Classes before the school year is over. These students will serve as a nucleus and insure an early and energetic beginning for next year's Senior Class play. The thoughts of the Class of 1956 are in complete agreement this evening—that we have created not only an enjoyable show and a permanent organization, but a medium through which the members of every graduating class in the future may be brought as close together as we have been in the creation, the nursing, and the delivery of "Spring Tonic."

Maybe
the fountain of youth
is a SPRING

Night after night a miracle happens.
Sleep strips away your weariness,
restores your energy.

It is wonderful, when you think about it.
Your bed can be as soft or as hard
as you like. It is so durable that the
manufacturer can guarantee it.

The steel wire used in the manufacture
of springs is a typical example of
the manner in which J&L-made steels
keep pace with the progress
of American industry.

As Ovid said, “Temporis ars medicina fere est.” In other words, it takes time to become a doctor. And with that consummation at hand, a note of triumph is definitely indicated.

On behalf of our subscribers—who will look to many of you for professional services—best wishes to members of the Senior Class of the University of Pittsburgh School of Medicine.
