## **Welcome to Scope & Scalpel**

Established in 1955, Scope & Scalpel is the longest-running amateur theater production in Pittsburgh. For 50 years the graduating seniors at Pitt Med have put on this show to make light of their profession, their professors and themselves. Each production has been unique and this year is no exception. For the 50th anniversary of the show, we strived to make this a celebration of all that Scope & Scalpel has come to represent, as well as making this a special show for our class. We invite you to look around at the displays that honor our class' talent as well as the talent of classes that have come before. Welcome family and friends, faculty and staff, alumni and all our other guests. We hope you enjoy the show!

*The University of Pittsburgh School of Medicine*  
*Class of 2004*

## **From the Producers**

Wow! What a show! Who knew we could pull it off? Throughout the past year we have been continually amazed with the talent of our class members. Just when you think you know somebody...BAM!...they surprise you with their ability to become a human pretzel and walk around on only their tongue! We truly appreciate all the time and effort devoted to the realization of *Lasix: Unloaded*. Sometimes the days seemed longer than a Whipple with Moser, but in the end, we hope you agree it was definitely worth it. Without the support of our families, friends, teachers, and fellow classmates we would never have made it through. This year we celebrate the 50th anniversary of Scope & Scalpel. In reflecting on this tradition, we are excited to see it continue for another 50 years, bringing together the next generation of Pitt Med physicians. We are honored and privileged to have been your producers.

*Jonathan Bickel & Rachel Norris*

Some funding would be helpful

To produce this great event

You'll be dumb with wonderment

Pitt Med will be the central theme

With nothing that is too obscene

And on top of our fee

You'll be involved artistically

So exciting, the audience will stomp and cheer!

So delighting, it will run for fifty years!

So exciting, the audience will stomp and cheer!

So delighting, it will run for fifty years!

Med students! and residents!

Attendings! and faculty!

Dental students! Pittsburghers!

VA nurses! Veterans!

Orthopods and OB/Gyns!

Intrigue, danger and romance!

Strobe lights and fog machines

Big show tunes in every scene

So exciting, the audience will stomp and cheer!

So delighting, it will run for fifty years!

So exciting, the audience will stomp and cheer!

So delighting, it will run for fifty years!

Spectacular, spectacular  
No words in the vernacular  
Can describe this great event  
You'll be dumb with wonderment

So exciting, we'll make them laugh, we'll make them cry  
So delighting... *and in the end should someone die?*

It's the med school life for us  
It's the med school life for us

Steady sleepin'... We get paged!  
We don't get... Paid no wage!

It's the med school life

Got no life to speak of so  
Doin' rectals all we know

Keep yer hands off...sterile fields!  
Nasty bedsores... Never heal!

It's the med school life

Don't it seem like attending's always growling  
Don't it seem like you're pimped all through the night  
Why are scrub nurses never ever smilin'  
You can never get a decent rest at night

No one cares when those J-tubes are a-leakin'  
No one cares when a Foley doesn't drain  
In the ED all patients are drug seekin'  
No one told us med school was such a pain! Oh!

Always rounding life  
Headache pounding life  
Hold retractor life  
Disimpactor life

Suuny skies we never see  
Sunny skies... no way... no sirree

No one cares for you a bit  
Med students you ain't Shhhhhh

It's the med school life

It's the med school life for us  
It's the med school life for us  
Damn retina... I can't see!  
Use a Foley... you've got pee!  
It's the med school life

#### Rap —to the tune of “Hard Knock Life” by Jay Z.

From scissors in the OR droppin'  
Scrubbin' in the longest Whipple that we've ever seen  
Moser's on your back, he never ever let you pee

Med rounds, a smoke screen and the heart pounds  
X-rays with the glass ground, gomers go to the ground  
Nightmares in the call room, get ready, disimpact a big boom!  
Esoterica.. it's hilarious  
Hemachromatosamize... claudicate with exercise  
Being pimped, an unpleasant surprise

Necrotize and make the fascia rot  
Let's talk prognosis, it's 50/50... uh huh  
Let's get that nurse's digits she's the shizzy ... uh huh  
Heart shunt, no correction, patient's dark blue  
Please get vaccinated it sucks to get the flu.. baby  
What kind of specialty ya goin' into.. ophtho.. maybe  
Med school malaise creeps over you... It's a med school life

It's the med school life for us  
It's the med school life for us  
We can't drop out... It's too late!  
Only hope to... graduate!  
It's the med school life

It's the med school life

Got accepted, happened at last  
Got accepted, haven't had class  
You get a call, early next morn  
It's Aunt Bea, she thinks she's got corns  
So excited to be an MD, but ohhh those annoying questions

Tell me more, tell me more, could you look at this rash?  
Tell me more, tell me more, what's this thing on my ass?

Grandpa's coughing, thinks he's got SARS  
Grandma's crazy, thinks she's from Mars  
Big toe's swollen, is it the gout?  
I'm not a doctor, get the hell out  
So excited to be an MD, but ohhh those annoying questions

Tell me more, tell me more, can you fix my hip please?  
Tell me more, tell me more, does this look like herpes?

Tell me more, tell me more, what's wrong with my abs?  
Tell me more, tell me more, I think I have crabs

Tell me more, tell me more, why'd I pee in that cup?  
Tell me more, tell me more, why can't I get it up?

One last question, I just have to ask  
How much longer can these questions last?  
No more questions about your disease  
I don't care, not even herpes  
So excited to be an MD, but ohhhh, those annoying questions

Tell me more, tell me more!

J'eet yet babe, I know the perfect town  
For all that flab  
I'm gonna loose my belt, and roll my waistband down  
And all that flab

Start the car, you know the O's the spot  
Where the Iron's cold, and the kielbasa's hot  
It's just a dirty hall  
Where you can go post call  
For all that flab

You'd think with all these hills, Pittsburgher's would be slim  
But they've got flab  
They'd rather take the bus than walk a block to the gym  
And all that flab

What would you expect from a town  
Where fries weigh each and every sandwich down  
Slaw on everything, in Pittsburgh grease is king  
And all that flab

Primanti's!  
And all that flab  
Uncle Sam's! Dave and Andy's!  
And all that flab

*Fat, fat, fat*

The O's a noisy hall  
Where you can go post call  
For all that flab

Oh you're gonna see your tummy shimmy shake  
And all that flab  
Oh he's gonna shimmy 'til the concrete breaks  
And all that flab  
Oh she's gonna need a girdle  
Richard Simmons' blood would curdle

When you super size your fries  
And all that flab

Hey yinz guys, now move your big caboose  
And all that flab (And all that flab)  
We're suing Mickey D's, our pants are bustin' loose  
With all that flab (And all that flab)

Start the car, you know the O's the spot  
Where the Iron's cold, and the kielbasa's hot  
Although you may be thin  
The Burgh will do you in  
And all that flab

*That flab!*

Brian Davies, Missy Hanna, Mike He, Cori Lynch, Mike Lynch,  
Amanda Malina, Tawny Ngo, Veeral Shah, & Stephanie Sterrett

ED, It's the ED  
We admit everyone we see  
Patient has a splinter  
Get an echo, x-ray and CT

All day, simple sneezes, coughs and rash  
We love to waste HMO cash  
So if you come to the ED  
You'd better be really really sick  
So really really sick  
But we'll admit you anyway!

Soloist ..... Mike Lynch  
Dancers ..... Leah Algier, Neil Badlani, Missy Hanna,  
Amanda Malina, Cori Lynch, & Stephanie Sterrett

Choreographer: Amanda Malina

Every time I get paged... nurses all gather ‘round  
My biceps are massive... knuckles drag on the ground  
Don’t need no stethoscope... who cares ‘bout heart tones  
I tell my patients... Me fix your bones  
Me fix your bones

Reduced a thousand hips... before I met you  
I’ll set a thousand more fractures... and spit out some chew  
You need a spotter... so don’t lift alone  
Don’t need no history... ‘cause me fix your bones  
Me fix your bones

I’ll put your leg in a cast... and your femur will heal  
I’ll do a fasciotomy... on a limb you can’t feel  
No admits to my service, send all patients home  
Two grams of Ancef... The only drug that I know  
Me fix your bones

Chorus ..... Paul Bryson, Sunny Cheung, & Les Thomas

Hold on little colon  
Got a big surprise for you

Sit down on the potty  
Diarrhea’s never been so bad  
Yeah it’s poo, it’s poo  
Leakin’ out all over you  
Clostridium difficile  
We gave it to you, how’s that feel?

C. diff is the bug inside of you  
Deep inside I know you feel it too  
Started off with a case of the flu  
Crappin’ all day cause C. diff’s in you

Regain your continence  
So you can wear your jeans again  
Antibiotics made  
Large intestine really ill  
Its spores were all around  
Under contact precautions now  
Yellow gowns, quarantined  
All because our hands weren’t clean

C. diff is the bug inside of you  
Deep inside I know you feel it too  
Started off with a case of the flu  
Crappin’ all day cause C. diff’s in you

Why be at home, when you can be inpatient baby  
You’ll be stuck in here a while  
So just take these drugs and smile

Yeah it’s poo, it’s poo  
Leakin’ out all over you  
A subtotal colectomy  
C. difficile for you and me

C. diff is the bug inside of you  
Deep inside I know you feel it too  
Started off with a case of the flu  
Crappin’ all day cause C. diff’s in you

C. diff is the bug inside of you  
Deep inside I know you feel it too  
Started off with a case of the flu  
Crappin’ all day cause C. diff’s in you  
C. diff is the bug inside of you

Young doc, there's a need to feel down  
I said young doc, keep that First Aid around  
I said young doc, make a schedule that's sound  
'Cause you're gonna be unhappy

Young doc, there's a place you must go  
It's Prometrix, register, give 'em dough  
Take your test there, but it's real hard to find  
And make sure that you save break time

It sucks to study for the U-S-M-L-E  
It sucks to study for the U-S-M-L-E  
Every subject is just designed to annoy  
It can wipe away all your joy

It sucks to study for the U-S-M-L-E  
It sucks to study for the U-S-M-L-E  
No time to get yourself cleaned,  
no time to have a good meal  
You gotta study all day for real

Young doc, are you listenin' to me?  
I said young doc, what do you want to be?  
I said young doc, pass to be an MD  
But you've got to know this one thing

No doc, does it all by himself  
If you want it, you can go get some help  
Ask Rich Levitt, and he'll dish out advice  
But it's useless at least he's nice

It sucks to study for the U-S-M-L-E  
It sucks to study for the U-S-M-L-E  
It's got everything for young men to enjoy  
You can hang out with all the boys

It sucks to study for the U-S-M-L-E  
It sucks to study for the U-S-M-L-E  
No time to get yourself cleaned,  
no time to have a good meal  
You gotta study all day for real

VA’s the same, only the names will change  
Everyday, it seems we’re wasting away  
Another place, where the people are so old  
I’ll whine all night  
To get discharged home

I’m a vet’ran  
On a wheelchair I ride  
Unwanted, dead or alive  
One hundred, I’m still alive

Sometimes I poop, sometimes it’s not for days  
My prostrate’s huge, five pounds is what it weighs  
Most days you know the time  
By the meds that you take  
When Matlock isn’t on, it’s hard to stay awake

I’m a vet’ran  
In Hoptel I reside  
Unwanted, dead or alive  
One hundred, I’m still alive

Oh, I’m alive!

I’m a vet’ran  
On a wheelchair I ride  
Unwanted, dead or alive

I walk these halls, a loaded IV in my arm  
Belligerent, ‘cause doctors do no harm  
Fifty admissions, still I’m standing tall  
I’ve had a million rectals  
And survived them all

I’m a vet’ran  
Got a rash on my side  
Unwanted, dead or alive

‘Cause I’m a vet’ran  
Uncle Sam’s on my side  
One hundred, I’m still alive  
Dead or alive  
I’m still alive

Soloists ..... Paul Bryson & Les Thomas  
Chorus ..... Sunny Cheung, Tara Cronin, Brian Davies, Cori Lynch,  
Mike Lynch, Ben Miller, Rachel Norris, Allyson Pitt,

I am three rivers  
I am Schenley Park  
Ohhh  
I am the dahntahn... Empty after dark  
I am a fountain  
Flowing at the Point

Ohhh  
I'm the Carnegie... That dinosaur joint

If anybody asks you where we live  
Just stand up tall  
Look 'em in the face and say

Take the parkway, head dahntahn  
Pretty soon you'll lose that frown  
Proud to say it... Da Burgh's the greatest  
It's that tahn that's forged from still  
Big city with small tahn feel  
Can't you feel it... Picksburgh's the greatest

I am the Stillers  
I am the Buccos  
Ohhh  
I am a Penguin... Dahn in the igloo  
I am an incline  
I'm yellow bridges  
Ohhh  
I'm the Strip District... I am the Sahside

If anybody asks you where we live  
Just stand up tall  
Look 'em in the face and say

You can go to Kennywood  
That ol' Thunderbolt's quite good  
Go ahead and say it... Da Burgh's the greatest  
I'm the sweeper that needs run  
I'm a Rib Fest that's quite fun  
Can't you feel it... Picksburgh's the greatest

In the years since the still mills closed  
A brand new city here arose  
Biotech and medicine we got that down  
No wonder the Prez called us "Knowledge Town"

I'm French fries stacked to the sky  
I'm Mount Worshington up high  
Proud to say it... Da Burgh's the greatest  
I'm an ethnic melting pot  
Snow in winter... Summer's hot

Can't you feel it... Picksburgh's the greatest

I'm that big hair flying high  
I'm a mullet on that guy  
Go ahead and say it... Da Burgh's the greatest  
I'm not nebbly I don't mope  
One for the thumb is our hope  
Can't you feel it... Picksburgh's the greatest

It's the greatest  
Can't you feel it?  
It's the greatest  
Can't you feel it?

Take the parkway, head dahntahn  
Pretty soon you'll lose that frown  
Proud to say it... Da Burgh's the greatest  
It's that tahn that's forged from still

(to the tune of "Walk Like an Egyptian" by The Bangles)

Soloists ..... Brooke Rossi, Alison DeLuca, Annie Lee, & Janna Baker  
Whistler ..... Josh Englert

*Choreographer: Amanda Lovallo*

Prescription pads with chicken scratch  
Mistakes that HIPAA is suppos'ta catch  
But they'll never know — no way no  
'Cause you write in language no one knows

All those drugs you write on that pad  
Will treat the disease your patient had

But they'll never know — no way no  
If pills go in their mouth or below

All the girls in the pharmacy say  
Way oh way oh way oh way oh

Write like a physician

It could be a laxative or not  
It could be Viagra that they've got  
But they'll never know. — no way no  
'Til they see effects down below

You could write 'QD' or 'PO'  
What that means your patients never know  
But they could sue — but wait no  
Can't read your name no one knows it's you

All the drug representatives say  
Way oh way oh way oh way oh

Write like a physician

Take that there pen in your hand  
Write down that drug for the prostate gland  
What's that you wrote? — oh way oh  
See every doc's penmanship it blows

If you want to find all the docs  
Dispensing drugs from a little box  
You read their notes — oh way oh  
Now who the hell knows what they wrote

That looks like a hieroglyph  
That patients can't read, and now they're miffed  
It's not a crime — no no no  
'Cause doctors do this crap all the time

All the girls in the pharmacy say  
Way oh way oh way oh way oh  
Write like a physician  
Write like a physician

Last night I dreamt of trichomonas  
Just like a fish inside a saline sea  
A young girl who has dyspareunia  
Protozoa swimming all about, no single doubt

She's at risk for STDs  
Discharge that is so frothy  
That's how I knew it had to be  
Flagella bonita  
Here's what I'll give to you  
Flagyl two grams will do  
Make sure you treat her partner too  
The smell will go bye bye

I fell in love with a sailor  
 Sweet love he made to me, then gave to me  
 El discharge muy malo  
 I prayed that the itch would pass  
 I'll kick his ass

She's at risk for STDs  
 Discharge that is so frothy  
 That's how I knew it had to be  
 Flagella bonita  
 Here's what I'll give to you  
 Flagyl two grams will do  
 Make sure you treat her partner too  
 The wet prep never lies

**“Hands Down Under”**

(to the tune of “Down Under” by Men At Work)

Soloist ..... Sunny Cheung, with Ben Miller  
 Flautist ..... Leah Algier

One day downstairs in Magee  
 Pap smears, pelvics, and a case of BV  
 I met a strange lady, she had some fibroids  
 She wouldn't let me feel her uterus  
 And I said

But I work with my hands down under  
 What's this strange smell I wonder?  
 Can't you feel, can't you feel the cervix?  
 This speculum is makin' me nervous

And I met a woman from Braddock  
 Her discharge it smelled like Haddock  
 I asked when's the last time she made love  
 Then I realized I forgot to put on my glove  
 And I said

But I work with my hands down under  
 Why this job I wonder?  
 Can't you feel, can't you feel the cervix?  
 This speculum is makin' me nervous

*Choreographers: Tara Cronin & Nicole Chengelis*

Some have warts and some have ‘GC’  
 Some have nasty rash  
 As long as they wear prophylactics  
 We don't make no cash

They get crabs and they get scabies  
 They don't see the light  
 We bill for their indiscretions  
 Whether day or night

‘Cause we are living in a venereal world,  
 And we are the venereal girls  
 You know that we are living in a venereal world,  
 And we are the venereal girls

Patients romance, patients slow dance  
 That's alright with me  
 If they don't wear proper protection  
 Then they get VD

‘Cause everybody's living in a venereal world,  
 And we are the venereal girls  
 You know that we are living in a venereal world,  
 And we are the venereal girls

(to the tune of “It’s the End of the World as We Know It (And I Feel Fine)” by  
R.E.M.)

Soloists ..... Neil Badlani, Josh Englert, & Brad Sobolewski

*Choreographer: Tobi Adeyeye*

Pitt Med it starts with the first year,  
Anatomy and Biochem  
Dean Harvey was so afraid.  
Genetics was a pain.  
Morris jokes are inane.  
Study ‘til your ears bleed.  
Gorge yourself at noontime feeds.  
Work around the clock  
Hope that you’ll be a doc.  
You study for the boards.  
Knowledge useless on the wards.  
Kernicterus and Volvulus, Wernicke Korsakoff,  
Who gives a crap I am guessing ‘C’  
Jamie Johnston loves kidneys  
and thought he was teaching us with the force  
Class by class less people came  
‘cause they learned it was lame,  
except those gunners  
And then, uh oh, PBL, it was hell, a waste of time... who knew?  
Stay awake, fall asleep.  
Summatives made us weep.  
Double check your Scantron.  
You can’t order a positive pANCA...  
Right? Right!  
That culottes wearin’ Toby Graham  
makin’ me feel pretty damn bored

It’s the end of med school and we know it  
It’s the end of med school and we know it  
It’s the end of med school and we know it... and we feel fine

Six o’clock – rounding hour.  
Getting pimped makes us cower.  
Crash and burn, relearn,  
Third year makes your stomach churn.  
Wear your scrubs and ID,

Attending knows who you be.  
Every class that you hate, mundane facts reiterate.  
Stay on call overnight  
Get paged, get paged.  
I wait, rush, rush. Life sucks  
I need a beer, the fear, residents make you tear.  
A plethora, A plethora, A plethora of lies.  
Offer me procedures, offer new admissions, and I decline.

It’s the end of med school and we know it  
It’s the end of med school and we know it  
It’s the end of med school and we know it... and we feel fine

And we feel fine

It’s the end of med school and we know it  
(I’ve had the time of my life)  
It’s the end of med school and we know it  
(I’ve had the time of my life)  
It’s the end of med school and we know it... and we feel fine

And in March is when we match.  
Graduate and off we go.  
Tears of joy start to flow.

*Hey, Bontempo*

ENT, Ortho, Medicine and, OB/Gyn.  
Pediatrics, Ophtho, Surgery Too!

You energetic, empathetic, graduate... right? Right!

It’s the end of med school and we know it  
(I’ve had the time of my life)  
It’s the end of med school and we know it  
(I’ve had the time of my life)  
It’s the end of med school and we know it... and we feel fine
